Adirondack Technology Solutions gladly donates one hour of the following computer services in support of the Belden Noble Memorial Library Silent Auction:

SYSTEM MAINTENANCE:

1. Remove unwanted software (bloatware)
2. Check the Operating System for available updates
3. Update all critical third-party applications (Adobe, Java, etc.)
4. Run a suite of anti-virus and anti-malware scans
5. Perform a Disk Cleanup to remove old and unused files
6. Check the system for file fragmentation (defragment the drive if necessary)

This type of service varies on the state of the system. If it is well maintained, then it should take no longer than an hour or two.

If the system has not been maintained recently, then the service could take 2-3 hours.

ELECTRONIC DEVICE TUTORIAL:

Guide you through the basic steps in setting up your new device, show you how it works and demonstrate how to use the various options or applications.

One hour per device.
